## **NEW BUSINESS**

**Topic:** Code proposals as presented.

**Motion:** None

**Discussion:** Code proposals agreed to by the committee for submission are:

1. Correct the oversight from last code cycle on the proper reference for permits in the Pyro/Flame and Welding Water-reactive solids and Welding.
2. Submit proposed change on the temporary tent permit thresholds.

The committee decided to HOLD the following proposals pending action by ICC, in October 2016, on identical changes for the 2018 editions of the I-Codes:

1. A change to the definition of Fireworks.
2. The deletion of a sprinkler increase for 1.4G Explosives.
3. The establishment of a new section of mobile food trucks.

As an FYI, the SFMO will be submitting changes as follows:

1. Correct an anomaly to properly align the Pyro/Flame permit fees.
2. Submit change to have SFMO credential Portable Fire Extinguisher Service Technician. This is essentially a resubmission of a failed submission from the previous cycle and has the support of the committee.

Since the VFSB will not have an August 19, 2016 Board Meeting – content submitted by the committee will suffice in satisfying all requirements.

**Vote:** Unanimous

**Action:** Passed

## **ADJOURNMENT**

The Subcommittee adjourned at 3pm.

Clerk of the Committee  
Mohamed G. Abbamin
